

Version-0

Date: -16/01/2021

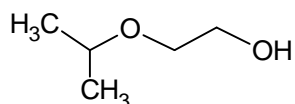

SPECIFICATION

CAS NO: - 109-59-1

Chemical Name: 2-Isopropoxyethanol

Ethylene glycol monoisopropyl ether, Isopropyl glycol

Structure: -

Molecular Formula C₅H₁₂O₂

Molecular Weight 104.15 g/mol

Appearance Colourless liquid

Assay by GC Not less than 99.0 %

Solubility Soluble in water

Storage Store in cool and dry place in tightly closed container.

Application

It is used as a chemical in organic synthesis and Bisoprolol and as a solvent for many resins, oils, waxes, fats and dyestuff.
