

Version-0

Date: -16/01/2021

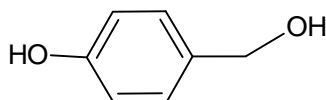

SPECIFICATION

CAS NO: - 623-05-2

Chemical Name: 4-Hydroxybenzyl Alcohol

p-Hydroxybenzyl alcohol

.....
Structure: -

Molecular Formula

C₇H₈O₂

Molecular Weight

124.14 g/mol

.....
Appearance

Creamish yellow crystalline powder

Assay by HPLC

Not Less Than 98.0 %

Melting Range

118 °C- 122 °C

Loss on Drying

Not more than 1 %

Solubility

Freely soluble in alcohol.

.....
Storage

Store in cool and dry place in tightly closed container.

.....
Application

It is used as intermediate for Bisoprolol fumarate.
